## Jackie to Manchester: Get Well Soon

MRS. JACQUELINE KENNEDY

## By ARTHUR GREENSPAN

New York Post Correspondent

Middletown, Conn., Dec. 27-Mrs. Jacqueline Kennedy and Sen. Robert F. Ken-nedy have sent telegrams to hospitalized author William Manchester expressing distress at his illness.

Mrs. Kennedy's message was sent from New York several hours before she de parted for a Caribbean vacation. She said she was "distressed" to learn of the author's hospitalization with pneumonia here, and told him "how much I hope" he will recover soon.

The Senator wired his get-well message from Sun Valley, Idaho, where he is on a skiing vacation with his family.

Both messages were telephoned to Middlesex Memorial Hospital here by Western Union late yesterday. The text of the Senator's message was not available, but from sources close to the Kennedy family it was learned Mrs. Kennedy's telegram said:

"Please know how distressed I am to know that you are sick, and how much I hope you will be better soon.

The 44-year-old Manchester, author of confirmed his pneumonitis, a

"The Death of a President," emerged over the weekend from a self-imposed re-treat into which he disappeared on returning from Europe two weeks ago.

Now he is the patient in Room 517, with an eyepatch over his right eye and continuous treatment with antibiotics to attest to a Christmas weekend which couldn't have been less like a holiday.

It began Friday night as he was helping with the family Christmas tree at his rambling two-story gray home on High St. here. A pine needle scratched the cornea of his right eye (he has been treated for this by a specialist).

The following evening, Christmas Eve, began to feel ill. By Sunday night, he had chills, fever and was in great discom-fort. Late Christmas night, Dr. F. Irwin Tracey, internist who has been the Man-chester family physician for many years, was summoned. He quickly ordered an exclusion

When Manchester was admitted to the hospital at 12:30 a.m. yesterday, his tem-perature was 104. Massive doses of antibiotics were administered; laboratory tests er, author of and X-rays were ordered, confirmed his diagnosis as pneumonitis, a form of pneu-monia which in Manchester af monia which is a state which af monia which is a state which af monia which is a state which af monia which and X-rays were ordered; and the doctor
