

Confidential 12/9/69

Dear Paul and Gary,

Attached is the card describing the enormous printout I have, if you can read it and if it is descriptive. It seems to be the entire Texas investigation - police, sheriff, the works. I've not had a chance to look at it. - in the course of putting it in a box - it overfills the second box of the 26, where I have it - I noted some police reports I'd not seen, some affidavits ditto, the Dallas police version (216pp) of the radio logs (perhaps identical with one the Commission published). Have no idea when I can even begin to get to it. But if you know + have it, your imaginations may be able to tell you how to retrieve from it. The pages are not numbered. I'd estimate at least 2,000 pages.

Just had a call from Art Kevin, who interviewed Frank Henkiewicz - who says he is perfectly satisfied with the investigations, knew Bobby's attitude, etc. I had Art primed with COUP and he asked just that question. Here FM added his own to what he attributed to Bobby: What difference would it make? And to this he added, "Suppose there were three Sirhan Sirhans?". I'll be getting the tape. I taped it by in the middle my machine just stopped recording. Beautiful people!

Paul did not have the 10.9 letter to DJ. It and another you therefore will not have, of 8/20, is enclosed. This should give both of you a complete file.

Papers here carried nothing, but Ray lost his rule case. Small item NYTimes 12/1, just got. Habeas corpus should be soon. With those lawyers it would be the second coming if he wins, but he certainly should (with what + have, anyway.)

Paul, I'll not have time to rummage, so I've written Simmons (enclosed). I get fartour behind schedule daily and deadlines get closer. I should be doing more writing.

May be seeing Bud Thursday. If any news on suit date, I'll send.

Best
