Dear Mr. Marshall,

The list you requested is enclosed.

I have no address for Summers. Generally publishers forward letters if requested. My unsolicited opinion is the the books will provide you with no fact that is not available from other sources, generally those he does not credit while appearing to, and that his opinions, conjectures and conclusions are not trustworthy.

If your major interests are in the field of your expertise you are welcome to access to my records, including of extensive Freedom of Information Litigation to obtain all pertaining to the spectrographic and neutron activation analyses. And, of course, what I obtained in the continuing litigation. It is incomplete because more remains withheld.

I have the FBIHQ, Dallas and New Orleans FBI office JFK assassination, Oswald, Ruby, Marina and Commission and other files, including about 40,000 pages of xeroxes of what the FBI calls bulky exhibits, which include what the Lab distributed.

You say you had little respect for JFK as a person. The only reason I voted for him is the alternative, of whom I knew much too much. However, this is not material. I regard the assassination of a president as the most subversive of crimes and any failure or inefficiency of cover-up of the investigation, any failure of our institutions, as the greatest threat to the country.

In this case there never was an investigation of the crime itself. The same is true of the King assassination. Hoover had an instant vision/solution, seized the case before LBJ asked him to, and nobody dared even think of what was not in accord with his preconception.

Best wishes,

Harold Weisberg

Dear Sir:

I suppose I should start off by introducing myself. I'm a Sergeant with the Detroit Police Department, who is on the staff of five firearms/law enforcement publications. I was a student at Brigham Young University on November 22, 1963. I was troubled by inconsistencies that developed from the very beginning, and my dismay has not lessened over the years.

While I had little respect for Kennedy as an individual, I'm deeply concerned that so little effort has been made by the government to determine the real planners of his death. I would appreciate it, if you could provide me with a list or catalogue of publications available from you.

Thanks in advance;

*Evan*

P.S. I just recently finished reading "Conspiracy" by Anthony Summers. Do you have an address that I might contact him at? I have some information regarding the Tippit killing that might be helpful.

Concealable Body Armor*

TO WHOM IT MAY CONCERN:

For the last nine years I have been totally devoted in the world of firearms and ammunition. This has resulted in the development of SECOND CHANCE concealable body armor and the saving of 160 American Policemen from death or critical injuries.

In my opinion Evan Marshall is one of the top 10 gun writers in the country and one of the world's most knowledgeable people in the field of bullet impact and terminal ballistics.
