Dear Jerry,

Idl and I have from our first moment with him liked John Masland very much.

He has always been very considerate and in many ways helpful.

He is a conservative, perhaps very conservative, career military man. His work has been classified and I've asked nothing about it. *Colonel.*

When he was to have retired about a year ago, in the last minute Chaeney wrote him that because of need for him ^{work} his retirement was cancelled as I recall for a year.

From something he said I think he decided to retire over disagreement with some of Clinton's military policies.

Without the need to be near the Pentagon he moved to be near his sister and where it would be less costly, or so he thought.

He is a very bright, very nice and very organized man. He has been interested in the JFK assassination for some time. I've mentioned him to you and to Dave before.

He already has everything about the CDs on his computer. What he showed me was really impressive.

I hope he does the same with the KPs.

This letter can, I think, be useful to you in your study of the executive sessions.

I think the considerations of interest to him should be reflected in those conferences of the members and isn't.

You may find some of the other matters of possible interest, too.

When you are here you may want to look at the one or two earlier letters from him on this general interest. In my office, under his name.
