Dear Patti de Souza,

Thanks for the hearings and the report.

I'm very glad they came so rapidly because I have to take a short trip and will read the report while flying.

If you ever see anything on domestic intelligence I would welcome it. I do hope the Congress persists in this interest.

But I also tell you that some committees are hiding some and protecting those responsible for it.

It is so extensive there is even spying on what Americans say in public, not by any means completely exposed in Senator Ervin's hearings on the use of soldiers for this.

The transcripts of the current hearings will interest me very much, particularly Senator Weicher's testimony today.

With three subcommittees sitting together, I don't know which to ask for them and their final report. If it is not too much trouble, can you please arrange for me to receive these, too?

Two are Judiciary subcommittees, one Foreign Relations. Administrative Practices and Constitutional Rights of Judiciary and Surveillance of Foreign Relations.

I do appreciate how helpful you are on these things. Again thanks.

Sincerely,

Harold Weisberg
