Mr. Harold Weisberg  
Rt. 12 Old Receiver Rd.  
Frederick, MD. 21701

Dear Mr. Weisberg,

I have been an avid fan of yours and your books. I enjoyed reading the Whitewash series as well as Post Mortem and Oswald in New Orleans. These books have been a valuable resource for me and my study of the JFK murder.

I am now preparing a slide presentation for the Arlington Independent School District on the JFK assassination. I would like your permission to copy the Altgens sequence from Whitewash II. This slide show is only for the use of presenting this important case to high school students in the Dallas-Fort Worth area.

On pages 244-245 and 250-251 is some of the most damning evidence against the Warren Commission, and it is these pages that I wish to use as slides in my presentation.

Thank you for your interest in justice and this case of cover-up. I also thank you for your prompt response to my request. Your tenacity and persistence is an inspiration.

Sincerely,  
  
R. Stewart Mayers

P.S. Are you going to be in Texas anytime soon? I would dearly love to have you autograph my copies of your books. Maybe I could make it up to Maryland.....

Dear Mr. Mayers,

12/15/83

Thanks for your nice letter. Now that I've passed 70 I enjoy such kindnesses even more because I'm still at it to the degree I still can be.

By all means feel free to copy and use not only what you asked about (for which also thanks) but anything else I've published.

But before you make your own slides, may I suggest that you ask Prof. David Wrono, History Dept., Univ. Wisconsin, 54404 (Stevens Point) if he has some already made that you can buy from him? I'm pretty sure he does. My records will be deposited there and I know that he has much, including video and audiotapes of a series of appearances and seminars there. They've made various materials available to Wisconsin schools so there may be existing copies. I'm pretty sure he has slides made from photographs I provided and they will be clearer than those made from the printed page. He's also done a bibliography.

Several weeks ago Jim Tague asked me if I'd be down there again any time soon. I don't know and don't think so. Not because I wouldn't like to be. I don't know if the doctors will let me fly because I've had no occasion to find out since there were serious complications following successful arterial surgery. I can't walk for long without elevating the legs and I can't stand still at all.

If you ever get up this way I'm almost never away from Frederick.

Sincerely,

Harold Weisberg
