Dour Dennis,

Thanks for your 10/22. Check enclosed.

I suppose it is that some days I'm more tired than others and some days I am tired all day. I've forgotten what I wrote Dave.

10/26/96

I am getting much more sleep. My body wants it so \overline{I} listen to my body.

Thanks for the progress report, too.

I suppose that at some point you'll be turning Inside over to me before you go abroad. Please be certain to indicate the program used on the computer so it can be used when that work is continued.

The few who have seen Waketh have reacted to it positively, think it is good. Also scary. Not good, important.

Best to you both, and thanks,

peda

Dear Harold:

Hope this finds you feeling better. (In your last mailing, you included a note you wrote to Wrone in which you mentioned that you had not been feeling too well.)

I wanted to get this in the mail before going off to my classes for the day. As you can see, progress, however slow, is being made.

I have typed most of the additional materials for *Waketh*... and should wrap that up soon and will send it along.

I have not yet made the corrections to the laFontaines but should also get to that in the near future.

Regards to Lil.

Sincerely,

.
