Dear Dennis,

Thanks for the Larry Kigg transcript.

It held <sup>9</sup>actly what I wanted and a little more.

The non-evidence is "transcendental" evidence and a few details on what they are keeping quiet about, how Schiller bought the KGB.

One reason for the silence is ~~that~~ the KGB creamed them.

I've been told by a friend who is reading NEVER AGAIN! and using the index at the same time that early on the index is off by a page and then by two pages. He also said it nonetheless is quite useful.

Work is going as rapidly as I'd hope. I've I think 17 chapters on paper and have the impression it is quite powerful.

If and when Mailer's tales make the best-seller Time List I'd like to know.

Random House has virtually bought it anyway.

Not on today's in the Post.

thanks and best,

Hi Harold,

Enclosed is Larry King transcript  
of Mailer. Hope it is useful  
& you. I have a copy on  
my computer & read later.  
Haven't read it yet - but going  
through the pages, I noticed

"NORMAN MAILER: [unintelligible]"

I expect that will be a  
good summary of the interview!

Take care. Regards to  
Lillian.

Dennis

P.S. Got the index from Bill.  
Also, I finished reading  
Newman! Excellent book! Thank you
