Dear Dennis,

There is a quote from Posner in the Globe story I'm glad to have and will use, thanks.

You have no way of knowing these things but I'll be glad to get any clippings like that you can send. Especially for the historical record the Globe's anniversary treatment. It is ^{Posner} people like ~~him~~ who tell me that any people can staff a Gestapo or a KGB.

I hope you and Gerry enjoy your second reunion this year!

On what when I was a boy was called "Armistice Day" and we then thought about how terrible war is along with how wonderful our boys were at it.

Yesterday I laid aside what has been keeping me too busy for a hasty memoir of which there is a copy for you.

On the Bill and Mackey Loeb digression I should have added that Bill was so friendly and wanting to be helpful that even when they went to I think Nevada for their skiing, I think they had a place there, he'd phone and give me the number and once or twice even phoned from his vacation.

We were glad to see you and I was so happy that you have made so much of yourself and can do so much good.

Something I'd like you to tell Gerry just popped into my mind. I kept a file for the record for history on the 25th anniversary as I am doing on this one. For all the books and all the stories and reviews I've been sent the file is less than a third of what it was for the 25th. The big difference is the number of TV crews here then. ^{only} ~~not~~ one so far ^(from Mexico!) in this one, at least more than a dozen then and from as far away as California. I take this to mean that the nets are locked into their pasts in their thinking as well as what they do and that the individual stations care much less and are doing much less. I suppose that is not all bad, considering what they do when they do anything.

I'll appreciate any clippings you can send on it, particularly from the Globe.

Thanks and our best,

Paul

Dear Harold,

A belated thank-you for your gracious hospitality in August. It was wonderful seeing you again after all these years. And it was a pleasure meeting Lit.

Thought you might be interested in what the local press is saying on the latest fraudulent work on the Warner Commission.

Regards,
Dennis.
