

1/8/98

Dear Dennis,

Thank you VERY much for the ~~re~~ retyped WEDGE, which ~~it~~ came late ~~you~~ yesterday and for the diskettes. I presume that you kept one for yourself and sent one to Gerry. It is a big favor and is much appreciated.

The manuscript on the Brown book that someone said he'd retyped and mailed back and never ~~got~~ here has been retyped by a stranger who seems to be a very

fine person. I enclose the letter with which he returned it. Very helpful!! He'd heard that anyone could come to the seminar for Jerry's assassinations course, heard Jerry tell the class that if any one of them wanted some extra work I had retyping to be done and he left a note for Jerry offering to do it. I sent him that at ms, he did it, and now I've sent him the Brown.

I'm getting to the end of Faking Kennedy: The Dark Side of J. Edgar Hoover but for several days have not done very much. Suddenly I was very dizzy, so dizzy it was unsafe to walk even with a walker. When that eased off a friend took us to the doctor who decided it was inner-ear trouble. It seem to have passed off entirely but it has left me much more feeble, feeling tired all the time. If this lingers I'll have to consult another doctor. I want very much to finish Hersh. From reports I'm getting he is still on the road with his sales pitch on whatever shows he can get. He would have prospered under Goebbels.

Jerry is continuing to spend every minute he can find going over and copying files for his own work. This should enable him to help you both much more as you get into yours.

He had an occasion I do not remember to write the Archives about the executive sessions. He got a reply in which the person in charge included a list of them. It does not include that of 1/22. Fascinating if it has been memory-holed. He will make a police inquiry about it.

I have reason to believe that the ARRB will in time be reporting on the testimony it has taken about the medical evidence. While I do not know it to be a fact, I have the impression they followed up on Post Mortem. They did take the prosecutors' testimony. What could Humes and Boswell say when confronted with the fact that their protocol includes information that does not exist in any notes or other records? Which, as I used it, proved they, as is obvious, had to exist and now do not, as I also proved in PM. They may have claimed to have no recollection but whatever they said they should have at the very least have created doubts. This so you can have that in mind if as I believe something is issued in a few months.

Again, many thanks. It is a big favor, bigger with all else you have to do. We hope you have a good year, all of you. Sincerely,

*Harold*
