Dear Bud:

When the stationery arrived, one end of the manila envelope had been torn open. Design or accident?

I had dinner with Hugh McDonald a couple of weeks ago in Santa Monica. He is a friend of Fred Cook and tells me that you contacted him from Florida wanting to see him when you get out here. He'll be glad to meet with you. If you don't have his address, it is: World Associates, Inc., 406 Wilshire Blvd., Suite 203, Santa Monica, Cal. 90403, Area 213-451-5481.

Hugh feels that there was indeed a conspiracy, but wants to lay low until the Garrison case, which he deplures, is over with. I didn't argue with him as he seems set. Also, he has to remain absolutely anonymous because of his business position. He has been doing some quiet probing, and I'm sure you'll be interested in what he knows about George DeLohren-schildt. Hugh also says he may be able to put us in touch with some fund sources.

I think the judge did all right by us allowing Cyril Wecht to study the autopsy documents. Hope the CIA is getting organized,

Cordially,

Betty
