

June 6, 1969
L.A.

Hugh McDonald

Morris Jaffe- Neither has anything to do with it-

DeM- Unscrupulous- capability of engineering assassination- No loyalties-

No anything- Sexual pervert- adventurer- Soldier of fortune

Worked for C.I.A. uper occasionl

Picked up L.H.O. oĳn their orders-

L.H.O. was never a U.S. agent-

DeM-L.H.O.- return after several years in U.S.S.R. -C.I.A. is interested-
that's why let him in and let Marina out

Very odd he comes bakk as easy as he did- Odd he brought Marina back- CIA
didn't turst him, wanted to keep on eye on him.

L.H.O.'s life throught U.S.S.R. is as he said it was- he was a doer

Why not flag State Dept. file? (No answer)

Mexico only knows of second trip-

L.H.O. didn't know why he went- he was confused and puzzled himself-- No one
went with him

May know man on speps- CIA thught it was L.H.O.

Two guns fired- L.H.E. was one - from 6th floor- not firing at target

Shotw came from Community Building- he was to have killed L.H.O.- Secret

Service didn't return L.H.O. fire-

L.H.O. didn't know #2- Didn't know what he was doing there- wasn't let in on it.

No. two man prob alive today-

Ruby fits in it- was back up man-

Mechanics of assassination was perfect Ruby was back up man- Back up plan
went into operation when first plan failed- Ruby knew only what he had to do.

Ruby's connections with Merfin are irrelevant.

2

Tigyr it not connected

Who engineered and why- LBJ behind it- motive- oppergunity

Emotional make-up- thhe M.O. fits his M.O.- LBJ has gotten away with murder v
before

WarrenLomm- Puzzle- Warren is honest- Patriotism

LBJ squelzed all lower level investigation- selected people who had never
investigated anything in their lives.

Hoover- None out of point- He felt LBJ really cost serious debts on F.B.I.
when he took it out of their hands- Warren Lomm was pure amateur

LBJ involves Warren, Russell, etc. in his plan

Bradly- No connection- was there, bragged to Whorts- but no connection
Planning? May have exploded right under water undo the issue.

L.H.O. never knew his trip to Mexico was essential to the assassination, which
it was- Man whose picture is shown is a key.

LBJ's interest original Bobby Baker story- LBJ was in Canada- came rushing
back- whsels set in motion then or shortly after- but same time he established
his office

RFK knew more than most people thought- may be why he fdropped out of race
Marti-Fyuner in out the whole deal- Planes made there-- assassin hired there-
George DeM could have been heavily involved in it

LBJ never sat down and discussed this with anyone- Maybe discussed "pay--off"
with DeM- someone had to pay him

Assassin not in U.S. today by all outs

L.H.O. went alone and came back alone. Definite purpose but he didn't know reason.
It was fied into mechanics of shoting.

Man who planned it is unknown to gun men. Knew him by picture but not by name.

Mechanics wont lead to why- cut off is too good- gap is too wide.

Successful assassination- No one knows

Arranged out of this country- Pay-off out of this country--Assassin would only identify contact man by picture-

Trigger man had no knowledge of Ruby, read about him in paper-

Assassin was to wipe out L.H.E.-Couldn't do it because SS ~~at~~ SS didn't return L.H.O. fire

Ruby keyed after this-

Assassin worked alone- Believe he fired two shots- He missed killing JFK on first shot-automatic weapon, two shots -then turned on L.H.O. but covering fire didn't come- he got the hell out of there

L.H.O.'s real job- fire cover shot- Be dead on street-

L.H.O. thought he was working for CIA- Told mother that- L.H.O. fires at Walker
Thought he was working with CIA there- was to set him up-

Fire close to limasine and convince JFK not to take unnecessary chances- Told he was repeating Walker shot- L.H.O. thinks he is part of official body- He doesn't know of assassin across street.

Man hired to do it doesn't miss- He didn't screw it up-

L.H.O. got pistol to get S.O.B. who set him up- ^{Tyrit} Tyrit stops him- He shoots him.

L.H.O. DIDN't work for Ruby- after failure, Ruby is triggered

Man who set up L.H.O. was in Dallas-- was out gunning for him- It was George deM

DeM- clever- lowest approachingly are possible

Ruter could have been hired by CIA to watch LHO

Marina may have had a part-put emotional pressures in LHO

Bobby Baker may have the key

McDonald would talk to him if he is on our side or neutral

Check DeM's movements in Haiti- Dates, times, places, contacts,

Woman in Mexico writing to him in Dallas-FBI pulled them out of the file

Was one of his mistresses-- She lived in Mexico- /There now McD tried to contact

Lara= Tried-Didn't- Bureau raised hell- would have to be a current contact-

She could be the key that would bust DeM.

Write Dallas and get DeM's bodyguard

Lara letters' were in DeM's file in -FBI removes them-- Shows in DeM's ¹²

in Archives- Removal order signed by Hoover.

Letters establish DeM's hatred of the Kennedys-" Some day you'll be able to get even." DeM knew Kennedy socially- (No connection with Mafia)

.After ^Aassassination, DeM paid 50,00 in Haiti--Same guise- Believe that is what the contact was fro-

Assass is a lej- CIA hires them- None in U.S.- want best in the world- Well established groups- are #identifiable
