Dear Hugh:

I have previously sent you some material on Richard Nagell. The LA Intelligence squad also has a thick file on him.

Enclosed is a copy of a transcript which I just received from "Fred John, 5906 Fayette St., Highland Park, Calif. 90065." I believe Fred John is either Nagell or he knows where to reach him. The transcript is of no significance but if it leads to Nagell it might indicate that he is ready to talk at long last.

In any event, I feel you should make the effort now to see if you can find Nagell and, if so, debrief him. I have always been convinced that he knows a good deal about LEO's trip to Mexico and the plot in general. He will be highly suspicious of you and it is up to you to convince him you are for real. In fact, you are what he has probably been waiting for for years.

Hastily, but with warm regards, as ever,

Bernard Fensterwald, Jr.
