

Dear Mr. Weller,

5/5/79

Herewith, and with thanks, the return of your copy of the McDonald fakery, L.B.J and the JFK conspiracy. I've read it.

It is a fake. With even all the appearances he made with the first book he hasn't bothered to learn the simplest facts of the crime, even the geography of it. Literally.

Nor has he bothered to check his own first fake for direct quotes from it. Or he's changed them. There is a key point that I checked in this book's quotation (alleged) of the "confession." One part that I used to cost him much money was changed in the original, to omit the utterly ridiculous, and is changed again here to reiterate what had to remain in the first book, it being too late for further changes.

Osborne is connected with nothing but safety: he's dead. As is Kinsey. And I doubt Marina will sue. She is libelled.

I've made ni marks in the book.

Don't go to a lot of trouble to find one but if you bump into one I'd appreciate a copy.

Many thanks,
