3/22/93

Dear Bruce.

Since the 1973 energy crisis I've been using clear-sided paper for drafts. But in the course of drafting a long book that Dave Wrone decided to retype on his computer, close to 300,000 words, I've accumulated enough to save many branches if not trees and some energy and draft a few more books, so now it is my best stationery with friends.

If I were not aware of the many changes in the Dallas area in the past three decades I'd be afraid of your taking a job at Denton.

Where before JFK's arrival the school's Young Republican Club had a ~~meeting~~ meeting at which they decided that when he got to Dallas they would "rub his dick in the dirt."

I have it in a Secret Service record of a report to it by the Dallas police.

If I did not suggest it, you should ask Wrone and McKnight for a copy of how they do it.

Might give you some ideas for a good start.

Good luck!

*Harry*

Harold Weisberg  
7627 Old Receiver Road  
Frederick, Maryland 21701

Dear Mr. Weisberg:

Thanks for your speedy reply to my letter--sorry I have taken so long to respond. I think the book should be out before the end of April--I will send you a copy. I do have a copy of Selby's video Reasonable Doubt. I purchased it not long after it was out on video. I do agree with you, it is an excellent piece of work. Whenever people ask me whether or not I think the Warren Commission was right I loan them my copy of Reasonable Doubt and say "Watch this."

I'll have to hold off for a little while my decision on the book for the Kennedy assassination course. I might not be teaching here next semester. I have decided to look for a job so I can be near my brother and his family (and in a place where there are more single females to meet). He lives in Texas, just outside of Dallas in a town called Carrollton. I have applied for a job at the University of North Texas (formerly North Texas State University). If I get that job I will teach the Kennedy course sometime, but probably not this fall. Of course the University of North Texas is in Denton, only 35 miles northwest of Dallas. If I taught the course there, we could actually take a field trip to Dealey Plaza and re-trace Oswald's flight. I have been there before. The one thing that struck me is how small it is. So small, that I doubt that people could confuse shots coming from behind the stockade fence as shots from the TSBD.

Maybe with Clinton in the Oval Office we can get a little honest back in government--if the media would only give him a chance!

I'll be in touch.

Sincerely,

Bruce C. McKinney, Ph.D.  
Assistant Professor
