

Dear Sylvia,

6/10/78

Shortly after the mail came today Roger called. I was, of course, glad to hear from him. He also said he is seeing you this <sup>coming</sup> week so if I can return your copies promptly they should reach you before you leave. If I can get them copied in time I'll do this to avoid the possibility of having them get lost in one of the countless stacks of what I have not been able to clean up.

Both records are interesting. I suggested to Roger that getting the best of the AF1 transcripts would be worthwhile. Of the omissions one that is of particular interest to me is the entirely unexplained shift from autopsy at Walter Reed to autopsy at Bethesda without any radio traffic on it.

If Bishop's account is correct the decision was made on AF1 as a result of Burkley's recommendation to "Lace" (Ugh!) Therefore radio messages from AF1 changed the autopsy arrangements.

This also makes questions about why there was no readiness at Walter Reed, why it took Finck so long to get to Bethesda. Perhaps why there was no offer of any such specialized services or inquiry relating to whether they could be useful.

This is a sample of my special stationery. In cleaning the cellar up a bit to make more storage space I came across some of my old farm literature. With the second side unprinted it can be used. I've used maybe 200 sheets in the past month for rough drafts of affidavits for use in FOIA cases.

Most of my time has been required by FOIA matters. Most of the court action is in a King case now more than 2 1/2 years old.

There is something I've probably never told you simply because on the few occasions on which we've been in touch it did not occur to me. In the new spectro case, which is again on appeal (JL is writing his long-overdue brief this weekend), I've been able to make a substantial and entirely unchallenged record in court and subject to attempt at refutation of the basic fact of the JFK assassination. The judge made an indecent wisecrack in cutting off discovery and depositions and I made extensive use of it. He said I could always file affidavits. Well, did I! As long as a book, including an excellent one by Jim Tague.

Of course the FBI did not challenge a word of it.

Hope you have a good vacation and that you are feeling well. Many thanks,

Sincerely,
