Rt. B, Frederick, Mi. 21701<br>$4 / 16 / 69$

Dear Lylvia,
I've delsyed enswering your very kind letter of the 14 th until the lset of tousy's meil becauce I Go not know how to anewer it. I'll think out loud, perhave thet will help you understend my dileme.

One of the few essets on whici I cen cepitslize in order to publish my booke is the literary value of their content. Frankly, elthough I atill go throuch the motions, I em not at ell hopeful oi comerciel publication, unless I sgein amke a resl success of a private printing, when i might ggain hope for reprinting - ond screving - by whores like Dell.

Right now this meteriel is under active consideration by a very convervetive publislier, "ith s fevorsble recommenation by the men he assigned to resd it. Another publicetion says it wents to go over it. Wile heve had enough experience not to be hopeful, dare I throw the opportunity away by teking the adge offf I believe any magezine article giving the essence of the content would fill collaterel rignts.

On the other side, I olso want the meteriol to be known. If this is adcumptishea in a smell publicetion, like "Minority of one" was, it lets those few of ue close to the enbject know sbout $1 t$, but it docen't do en enful lot more. On the other hand, if it goes into a magazine with a substential circulation, they would pay enough to help material ly with publicstion of the book. The lergest psy enourh to maise it possible.
is I have bcen thinking about your letter, a possible compromise occured. Let me see what you think ubiut it. Nien we spoke sbout this by phonech you suegested an orticle in the "ivew Yorls Nevie: oi Books". They ere essentialily a iiterary publicstion. Therefore, why not do an article, assuning their wiflingness, on the precticel inpossibility of getting commercial publicetion for any serious work besically in dissgreement with the officiel acount of the Fresefdent's murder end whet this mesns to the country ond soys of the society - and publ ishing end publizhers. The only two critical books of which I know that can be cunnsiderec at all serious th $t$ did not have this trouble ore Epstein's and ' opikin's, both kof Which concede the besic officiel assumption, oswsld's guilt. Thompson reheshed. You kow youx own experience. Lere's was e fluke, fed back by a Sritish publisher efter he hed dispoired in the U.S., End ectuelly arrenged by on editor for a house in New York the $t$ rejected the book, es they hed mine before it. Dell bni Dial turned AITTiAAS down three times before coning to me for it efter I made a success of $1 t$. They turned MITEWASF II down in Cotober 1966, or Soptember, poseibly, then ceme beck for it in Decenber of Jenuery, ofter they sew how HITLWASH took off. rou cen hove access to my rather extensive publisher files, for use of letters (without siguatures), tor illustrete the trin not a single cese was the decision editorisl: siso for this purpoze you cen mek Gentrel reierence to whet the books prove land I include coul DIETAT, of which I was today told a successful copy hs s been made by mic:oflim endi'll goon heve it for you), with few of the less merchintable cocumente to be vee ss part of th piece. I think it is possible to find those that I mínt not br. able to sell thet re still retty hot end not genarslly known. You will thus be aaying both thines, thet there is this news
meteriel thet is significant- thet is enouri to put people in jail - and it cennot be published comertially, ond why it comnot be publi hed. I think suck c plece could b a msterial addition to the litersture. Lene feiled miserably by lying snd mufecturing. Thile I cannot estimste the attitude of the magazine, I think it is sppropriate for such a publicetion, and I think thet if we cen eet together and discuss this, I cen give you enough to sccomplish your purpose while protectine thex possibility I want to protect.
$T_{\text {his, }}$ hovever, ought not be a reel short piece, as you sugeest; yet I do net propose s Fopkin-length trestise, unless they sbould want it. There it little problem reeching that length. It isn't necessery.

Offhand, I think we could use proof of the perjury, thich should meke it hot enough for NYRB und might get them the news attention all megezines ment. I cen add to this, forexample, with whet ferry told me (he did let me interview him, though not on tepe, and he told me how he knowe the President was shot in the back, not the neck, about two inches down).

Then te epoke earli $r$, I had hoped you might be eble to come down during the Bester holideys. ThenI conle hove let you see more. I do leve more. I think the third I heve yet to write may be even more sienificant, even more destructive of tie integrities involved, snd ths false officisl posture.

Hy purpose is not selfishnese, for $\overline{\bar{I}}$ hsve given others access to what I hove. I geve New onleans what was pretty veli used on Finct, and permiseion to those lovyers to use what of the theterial they coneidered necessary (the reason for the initisl limited edition, to establish ond protect iny rigits). I let you, Cyril and others know imedietely what had. - he been oifering him aceess to other of ny unknown naterisi for more then a year. He just hasn't taken time to look ot it. Winile I have refueed John Nichols permission to use some of what shewed him in confidence long ago in his writing, I am, yithout his even asking for it, maine other unknown meterial svaileble to him for purposes of his suit.

There ere further conplications I cannot here go into. They asy ail add up to nothing, but i hava a numbor of unoficial contects establishod. I am in correapontence with a number of new penple und the don ia not reelly closed on me. These are political rather then publishine people. Wifle there is no reason to draw rrent enoouragement from it, todoy I got a mesningful letter from Burke Hershall, tho hfs refuacd to reply for more then a yeer. In it he provided e besis for responding thet mey lead to e dislogue. Something similbr at the Deportment of Justice. Sive deys sgo, whet Lane idilled with tiat horror on the "too many guns" opened up with o different person. One formerly close to Kennedy sent mord he ia acceptins my invitation and is coninc to see me. These are zot publishing possibilities, will not yield ne money, but they mey be the kind of o ening thet hey do more the s anthing olse to eccomplish our purposes.
${ }^{H} y$ wife hed to work after the end of the tex period to finish up some I st-minute delinquents. So, I Got the meil at the postofice this moming and when I go in to wick her up, will moil this. It forces heste uron me aso, en I hope - heve besn cleer. I'd like to tinnk about it longer, not just sey no, though thet is zy feeling ot the moment; chiefly on the besis this mould ruin my ch nce of finencine the book. I do eppreciste the ofer very much thithe meny urusuel editicne that ore so kind ond uncelfish. nd i cherish sons of the writine in the proposed

Sincerely,
