

2/27/67

Dear Sylvia,

Having heard nothing from you I presume you did get the Arnold document and do not want the negatives I had made from the Altgens picture.

What reminds me of this is that I finally got the color picture of the shirt for Jones Harris, which in turn reminded me that you told him to never darken your door, which might include proxy crossings by postmen, etc. Let me know if you want them. If I do not hear I presume you do not.

That picture, so long in being made, makes for the most fascinating conjecture (the shirt picture). It is the wrong color, yet is clear and sharp. Described originally as brown, it has a very pronounced gold effect and in the picture comes out reddish orange with no gold.

Busier than usual, farther behind than usual, having made more than a dozen radio broadcasts by phone since the N.O. thing broke. When that whole story comes out, Liebeler will be hurt badly. What little reaction I have gotten to the "Majority Report" was 100% anti-Nizer and but a single compliment for Lane.

Tom believes there is a connection between Schiller and Epstein deriving from a phone call from Schiller asking for his help on something. When Tom asked how he knew, Schiller said his secretary was working in the Archives and spoke to Tom hence S knew Tom was working there. Tom says he spoke to no sec. to S. but to Epstein he did talk. TW plus two.

Epstein told Tom he was written something for the New Yorker, that the New Yorker is going to do an Esquire-type thing, and that if Tom wants anything printed to let "them" see it for the World-Journal Tribune.

Best,
