Mr Harold Weisberg ,  
Hyattstown,(20734), Md.

Dear Mr. Weisberg:

As you recall I once wrote you before relating to my book, "Shysterism, U.S.A." I got tired fooling around with these publishing houses and published it myself. I am currently advertizing it in the NY Times, L.A. Times, and several other major newspapers. Results seem to indicate that this will pay off even doing it the hard way. If some major publisher would get hold of this and do it right, this would and should be a best seller. The trouble is that they all want book changed so much un til I will not go with deal.

Another thing that buggs some of them is the fact that I have called names and cases and they fear libel. But I have filed this part, (all portions where names and cases were filed in two cases as part of the official record in cases in the Tenth Circuit Court of Appeals as well as the Supreme Court of the U.S.). For that reason I have 100% protection as would any publisher who published the book as I have written it. It is a pittÿ they do not for as indicated, the book is selling well even with advertizing personally.

Joe Pyne got ahold of a copy and wrate to me asking that I appear on his show. I am now in correspondence with him about this. The problem is that the book is too large to be the subject matter of just one show. If I can get him to narrow it to say three main fields, I will go along with him. I have heard you three times ðn radio. Do you have any suggestions. I do wish you would write me a detailed outline of what you recommend on this. Forewarned, is forearmed you know. I fear having him make a shambles of the program. Another thing I need advice on is whether he paid your way out there and back and your reasonable expenses or did you pay your own way each of the times. I understand you were on T.V., but did not see this. The first radio program where you told your story was very very good. I think you got your story over, but the last one was one big mess and not of your making. I simply do not wish th: to happen to me. Please advise me about it.

Sincerely,

  
C.A.Meeker.

DESCRIPTIVE INFORMATION OF CONTENTS OF:

"SHYSTERISM, U.S.A."

Thank you very much for your order, and which you will find in this delivery. Ten items were advertized and which will be listed below. The page references found under each of the ten items relates to the location of the particular subject matter in the book, "SHYSTERISM, U.S.A.", and which EXPOSE relates only to the first nine items. Item ten is a complete and separate book.

"SHYSTERISM, U.S.A." contains about seventy thousand words, and it is a blistering attack on the courts of America and on those responsible for the farce that is widely operating as courts of justice in America. This book shows you how to protect yourself, and covers in depth the primary areas where the American public is being unmercifully taken. It further clearly demonstrates methods to put a stop to the farce. The purpose for writing the book is outlined in depth on pages, 21-22, and a detailed digest of this EXPOSE may be found on pages, 1-22. This is a book that should be very valuable and highly useful to most every family in America. It goes behind the curtain of flim-flam and obfuscation that the legal profession has drawn to confuse and to milk the public for all the traffic will bear. It clearly shows the reader how he may protect himself. Keep in mind that the average lawyer will never disclose these trade secrets and that if he did that he would likely be disbarred for doing it.

The author is a graduate from the U.S. Naval Academy, spent twenty one years in the Navy and retired therefrom as a Navy Comdr. He also is a graduate in law, although never practiced; but due to having been heavily involved in highly complicated business matters for more than twenty years, including the digging of thirty six oil wells, he is highly aware of the methods currently being used to fleece the U.S. Public out of countless millions of dollars yearly. The legal profession as a rule is a sickening disgrace as are most courts in America. This does not mean that there are no exceptions. There is however, not a family in America that could not benefit from reading, "SHYSTERISM, U.S.A.". Studying it should save most families a large amount of money plus untold heartakes.

If you have sent only \$2 with your order you will be mailed in a separately bound booklet the chapter contents you have ordered. By sending in an additional \$3 you may obtain the entire book which is fifteen times the contents of the individual chapters as have been advertized and which, as observed, consists of the first of the nine items listed below. It will be worth your effort to do this.

If you have mailed in \$7.50 the delux edition of both of the two books were sent to you. Where \$5 has been sent, and where you have asked for item ten as well as several other items, you will have been mailed both books in the DECORE EDITION. Where item ten has not been ordered you have been mailed the DELUX EDITION of, "SHYSTERISM, U.S.A.". The ten items as appeared in most of the advertisements run are as follows, including page references:

Dear Mr. Mesker,

Glad you are doing okay with your private publication, but sorry it was necessary.

On Pyne, be prepared for his customary dishonesty, for his trying to make a spectacle of you. Also, I made a mistake in not getting my address on, for without that the exposure does a private-publisher no good.

They did not pay my expenses. Each time I was there anyway.

Whatever they promise you or lead you to believe will be of no meaning if they decide otherwise.

Sincerely,

Harold Weisberg
