

He phoned and I wrote no answer

Sept. 17, 1984

Dear Harold,

All the mail from my town is processed through Providence, though surely not through Denver. Much thanks for forwarding the FBI documents pertaining to Harvey Lohmeyer.

I have a tidbit regarding another FBI document: the 4-18-68 teletype from the K.C. field office to HQ (44-28861-1448) informing that there is a Galt listed in the Toronto phone book. Regarding the scrawled notation made at 6:10<sup>f</sup> pm by headquarters, Eric Galt has recognized two of the words there.

Shaddoff--the maiden name of his son's estranged wife  
Garry Eric Galt--his son

It looks to me as if Galt's interpretation is consistent with the letters in ~~it~~ the other decipherable words.

Do you have a copy of a book Crossfire about the MLK case? I was told that there is a section on the "fat man" incident and I'm having trouble getting a copy.

I also got your 8/27/84 letter. Good letter to the times--a major, neglected point well taken (domestic political abuse will be cloaked). Thanks for your thoughts on DeM. I agree that the Oltmans tape is useless and that DeM was mentally ill, it's just that his seemingly spooky connections make him interesting.

Best regards,
