Dyersburg, TN 38024

Dear Wallace,

I've been using clear-sided paper for rough drafts since the 1973 energy crisis.

I now have so much I sometimes use it for other things, like letters.

After ASK Harry Livingstone's erratic and unpleasant behavior grew rapidly worse. With or without help he invented a conspiracy of the rest of us to prevent his breaking the case open. For a while he had Mary the ringleader. I've heard she has a letter from him saying that was wrong, that I'm the real ringleader. (When it is awkward and sometimes painful for me to even use my ~~fix~~ files and have done nothing except tolerate him when I should not have.)

With the beginning of his really vicious campaign against Mary I started sending information that as the lawyer for his publisher (and now also mine) I believe a friend of mine should have. Like the kind of thing that may be thrown at them in court when they publish High Treason 3. It is scheduled for October publication, ms. due to be handed in in a week or so.

With this newest of his imagined conspiracies having started at ASK and with his publisher having only him as a source, I'd like to send a copy of your memo of which you sent me a copy and I must have in the by now fat livingstone file. I'd also like to send a copy to a woman friend of Mary's who is trying her best, and doing well, to look out for Mary's interest.

If you have anything else on this insanity scheduled for publication you can let me have I'll appreciate it.

Thanks.

The discarded side of this paper is from a very large book I now have in rough draft. I do not know whether it can be published or not. If not it is a record for history.

Thanks and best,

Harold Weisberg
