

Dear Bill,

11/23/97

Sorry that what I wrote about those rough drafts was not clear. <sup>I</sup> hope this gets it straighter for you. That was a touchy time. I was concerned that some dizziness <sup>Bill</sup> experienced might mean more. The doctors said it could be - but was not - the beginnings of a stroke. She had the cat scans and even that had to be repeated. She is less unsteady but sometimes does use the walker she was told to use all the time several years ago. I never use the one I was told ~~to~~ use so I am not sitting in judgement on her.

Aside from the fact that I have nobody to do the retyping, I can't really afford to do it all with xeroxes, as many copies as I'd been sending of disks, not because we are broke, for we are not, but because our expenses are what they have been. Several extras with dentists and a surgery to remove a cancer from Bill's forehead and my medicines - my, they are at least \$750 a month! So of course I can't think of having ~~to~~ <sup>my</sup> work done commercially. I discussed it with McKnight and he thinks that what I've started is OK. I had a xerox made and sent it to you and I'm sending, have sent, a copy to Ginocchio. You can copy it or not, as you prefer, so also can Charles and Hal, and then I'd like it sent to Weichter, who can then send it to Wrono, who will keep it. Ginocchio will send his to MacDonald and Dennis will send that copy to McKnight, who will keep it. ~~He~~ <sup>He</sup> ~~Wrono~~ <sup>Wrono</sup> ~~want~~ <sup>want</sup> to. <sup>copy</sup> Anyone who wants a copy is free to make it but not only would the xeroxing cost be a burden for us today, making all those packages would be for me. It would also take time from writing, which I continue to do when I'm up to it. I've the first chapter done on a book on the Hersh atrocity. The Dark Side of Sy Hersh, I call it. If you see anything in the papers out there I'll be glad to have it.

I've heard nothing from the other retired Secret Service agent Morris. <sup>if</sup> and my letter was not returned, so he is alive. The reverse in court, which really comes from his own delay, <sup>whether</sup> or not he realizes it, may have been hard for Hickey to handle, and with his having psychological problems to begin with, I'm not pushing this.

So, make any copies you want for you and Charles and if you'd like for Hal and then the manuscripts should go to Weichter, 1313 Wyndon Lane, #115, Louisville, KY 40222.

Livingstone and his book are crazy, as he also is in what he says about me. Ideas and irrational ones at that. Comes from my making him see how wrong he was on his claim that the Zapruder film was doctored.

Do not spend any money on the ms. on the disk my niece made. I should have heard from her. I spoke severely to her mother, my sister, two weeks ago. She

is not putting in long days, leaving home 7 a.m. and getting home 9 p.m., so she has little time. I've asked for an explanation and suggestions and said I can't leave it this way. I told her to get the correction made commercially and I'd pay for it, if that is necessary. But I think it isn't. However, until I <sup>hear</sup> ~~hear~~ I do not know. Why she shifted <sup>programs</sup> ~~programs~~ I do not know. Makes no sense from the little I do know.

You may find an enclosure of long before you were born interesting.

Thanks and best to you all,

*David*
