Dear Bill,

Thanks for your this morning's call. You sure sounded like the allergies have a firm grip on you! Hope it does pass off soon.

Today is Mil's 84th birthday and she is celebrating it by relaxing when she did not intend to. She planned to get back on tasks she has yet to do and then take in the Orioles-Red Sox game but as soon as we got home from lunch and she sat in her chair she zonked out. I'll probably take off and take the game in on radio.

We are very, very happy that you and Charles have some O in NO to send. The sale on them is not much but we were down to the one our visitor did not take so we'd have it in case we need it. He'd get one from the next batch when you send it. A fine person who's slipped over from Baltimore for a visit when he could not stay even for lunch. He was the travelling secretary of the Red Sox but he is now director of Baseball operations, a nice jump. For a very nice guy. Ed also like him and that helped her relax.

The only supplies we needed was a ribbon for this machine and I picked it up yesterday, thanks.

After you were here the storms took enough trees down for a winter's heat. a friend is here looking it over to begin harvesting what he'll be able to.

Time was I'd had had it sawed, split, started and largely burned by now.

Appreciate what you (pl) have done to get O in NO done and what you called to let me know. Won't have to do any backordering now.

Many thanks,

Fredy
