UNPRECEDENTED INVESTIGATION

BY UNPRECEDENTED MEANS -

UNPRECEDENTED RESULTS

● From the moment those thundering shots fired in Dallas November 22, 1963, reverberated around the world, one man alone has dedicated his life to a full investigation of that "crime of the century" in all its frightening ramifications.

● To this investigation of a magnitude without literary parallel. Harold Weisberg took a combination of unusual skills. He was an investigative reporter, Senate investigator and editor, OSS analyst and legal investigator.

● He invented the "underground" book to bypass commercial publisher's fear of government on this then taboo subject, exposing the official lies by which this assassination was "solved."

WHITEWASH: The Report on the Warren Report made publishing history and opened the subject. Dating to February 1965, it is the first book, basic, definitive and unchallenged.

● His six books on the JFK assassination are the works that first brought to light virtually all the misrepresented and suppressed evidence. These books and his work methods break new ground in investigative reporting. When he could not rescue the evidence from official suppression, he sued the government for it, becoming the writer to make most use of the "freedom of information" law. Congress cited one of these suits as the first of four requiring amending of that law. It then overrode the veto of President Ford, former Warren Commissioner and one of those who agreed to "destroy" the record of its own guilty knowledge.

● These remain the basic books on the JFK assassination. They also report the first and most thorough and extensive resurrection from suppression of the officially ignored evidence, reproduced in facsimile in all the books.

● FRAME-UP and Weisberg's subsequent investigations laid the basis for getting the assassination of Dr. Martin Luther King, Jr., in court by providing a defense for James Earl Ray.
