Dear Bill,

Jerry McKnight, who teaches a course in the politics of assassination, has just decided to use Whitewash in the course. The students will buy it. He has limited the class to 18 but I do not now have 18 copies of the book. I've not counted them but there may be a dozen. So, if you and Charles and the others in your assembly line can, I hope, get these mailed and shipped that will be a great favor and will eliminate a problem for Jerry and for me.

It will save time if they are shipped directly to the Book Store, Attention Mark Werstein, Hood College, Rosemont Ave., Frederick, MD 21701.

And our sincere thanks with it.

They need them by the end of the month, I think Jerry said by the 29th.

I hope you met him where you were here.

There was an amazing coincidence this morning. At the physical therapists they are saving file-folder boxes and those from stationery for me. Of the latter I got the first this morning. And it is identical with the blue-pattern one you sent me. Which means that one is available coast-to-coast yet we've not found anyone selling them!

We are about as we were. Saw the internal-medicine specialist Thursday. He said my chest sounded good. Guess that means he detected no fluid. But the blood pressure was up a bit, 170/60.

See the local cardiologist tomorrow.

When I've not been writing I read and corrected the manuscript Picturing Corruption of the JFK Assassination, on the Groden books, and four more chapters of the very long Mailer ms. The Picturing is on Groden's two. I've heard that he is being sued for thievery. In this writing I say he can't even steal straight.

I wish in the hope of making the mail. Thanks and best to you all,

W. Mills
