

Dear Bill,

8/22/96

Thanks, many thanks, to ~~you~~^{you}, to Charles and to all in your family for the books that got here and to the Hood bookstore both yesterday! We are glad and they are glad and so is Jerry that they will now await the students some of whom are already at the college. But ~~xxx~~ classes do not start for about a week.

Those you had in envelopes ready to mail are particularly interesting to me!

I've been afraid to mail any without cardboard backing. First time I get an order for a Whitesh only I'll find out if the plastic wrapping I could feel gives enough protection in the mail. Many thanks for that thoughtfulness.

McKnight has been working on another book. Getting ready, getting information making notes, etc. I gave him the copy of Case Open before it was butchered in NYC that you ran off and bound. He had been making notes from it finding it quite useful in telling him what he did not know.

That reminds me. Before you changed your computer and ran into all that trouble with the new one I sent a few chapters to be added to a book that had been retyped for your daughter to retype. Has she gotten to that yet? Having any trouble with it, with the terrible typing and writing?

Matter of fact, McKnight was impressed by the job I'd done on Posner, so much more than was printed.

He rather enjoyed that.

Again, Bill, many, many thanks! We do appreciate this very much. It is a very big favor.

Best to you all,

Harold
