

Dear Bill,

3/15/96

Please excuse my delay in thanking you for the additional four boxes of WHITENASH that got here in fine shape. These should hold us for a while and we are so glad to have them!

I'd begun another manuscript and wanted to read and correct what I'd written before having to turn my mind to the Hosty manuscript the corrections on which were due that day, the day those books came. I have just finished reading and correcting what I'd written and the corrections did not come until I was asleep last night.

The books came day before yesterday.

You do not know Jim Cesar. He heads the AARC in Washington and was my FOIA lawyer. He was here yesterday. Ed does his taxes

He updated me on what the Assassinations Records Review Board has been doing. About the assassination itself, almost nothing.

It has deposed James and Boswell.

I think they did it with kid gloves, to be able to pretend they have addressed my criticisms of it for not trying to get the autopsy notes disclosed.

He'll try to get the transcripts for me so I can go over what they asked and the answers they got.

We've had a brief respite from the cold. I went out for the mail yesterday in shorts and without any jacket. But the cold is scheduled to return tonight.

But March is half gone and while I can remember a blizzard in April several times, it is rare around here.

Again, many thanks to you all,
