

Dr. David K. Minton
Jefferson Medical Park
1121 S. Jefferson St.,
Roanoke, VA ~~24106~~ 24106

12/1/92

Dear Dr. Minton,

When Jim Lesar and I were speaking the day before yesterday and I asked him what is new, what he told me included that you and a doctor on the west coast are writing a book in response to what JAMA published

I described briefly to you the book I'm working on. When I do the last chapter and the conclusions it will be ready for editing.

I have no feeling of competitiveness and will help you all I can if you'd like.

You and your associate(s?) are welcome to use my records and copier, should you want to do that.

Or if you want to, any of my published work.

You reflected an understanding of the undependability of most JFK assassination writing.

With many of these books anyone with reasonable common sense and some knowledge of the fast~~er~~ is able to perceive their defects.

However, some, a few that have been successful and achieved some popularity and that claim to be documented really are not and are not dependable and on the medical evidence in particular are just plain wrong,

Using them as sources can be ruinous.

Good luck with your project,

sincerely,

Harold Weisberg
