Dr. David K. Hinton
1121 South Jefferson St.,
Roanoke, Va 24016

Dear Dr. Hinton,

Letters like yours of the 15 mean much to me, especially now that I'm 79 and in impaired health, so I do thank you very much for it.

I believe that the multitude of books presenting unproven and usually untenable theories as fact and as solutions to the JFK and King assassinations have been a major cause of confusion and frustration among people who care and have tended to let the official mythology linger.

If, by the way, you have a copy of the full text of the recent AMA adventure in mythology in support of the official mythology and of the press conference I'd very much appreciate copies. I am trying to leave an accurate record on these things for our history.

In addition to the books, of which information is enclosed, I've obtained about a third of a million pages of once-withheld government records by a series of FOIA lawsuits.

They will be a permanent public archive at local Hood College, a very good small college.

Thanks and best wishes,

Harold Weisberg

Dear Mr. Weisberg,

It certainly has been a pleasure reading various books which you have published in the past. I currently own Whitewash II--FBI, Secret Service Cover-up, Photographic Whitewash, Whitewash IV--JFK Assassination Transcript, and Post Mortem. I do not have several books which I would like to possess. I do not have Oswald in New Orleans or the original Whitewash. If I am able to buy them, please contact me and I will be glad to send a check or money order to you for these two books. I also understand that you published a book regarding the Martin Luther King assassination called Frame Up. If you have that in your possession as well, I would like to obtain it and will include this within my check. In regards to the various works which I have read that you have published, I am impressed by the factual information at your fingertips which you are able to express to your reader. As you are well aware, many of the JFK assassination books are not so factual. I am also what is known as a classicist. When I was a college student, I was interested in the classics and now as a JFK assassination reader and student, I enjoy reading the classic works on the JFK assassination. Much of the information which one reads is fresher and has not been tampered with and moulded over time. Although I am certainly no authority on this matter, I am gleaning a great deal of information and have come to various conclusions which certainly are much different than the Warren Commission's.

Thank you very much for your prompt attention to this matter. I await your reply.

Sincerely yours,

David K. Minton, D.P.M.
