TA23 1 SIDE 1

Bill, you'll have to forgive the pool fidelity which this tape is going to exhibit. In the first place, the tapes that you are going to hear were originally recorded at 1 7/8" per second on a Morelco Carricorder and were transcribed to another tape, also at 1 7/8" per second. And now they are being played back at 1 7/8" per second on yet another tape and this time at 3 3/4". So having been transcribed twice over, a great deal of the clarity has been lost but still I think it is intelligible enough that you will be able to garnish a great deal of information. Now the tape that you are going to hear is typical of the kind of information that BROOKS is able to give. It sounds at first like he is reading from a written list of some sort, but he's not. He's rattling names, addresses, phone numbers, license numbers, various kinds of prescriptions literally off the top of his head. He's able to do this, of course, because he spent several years in Minutemen organizations and during thisperiod of time became quite intimate with the inner workings of the outfit. At any rate, the following recording which is about one half hour long, perhaps a little more, is again a good example of the kind of material you'll get from BROOKS. Now this tape you're listening to now is not going to contain all of the tape material I have from GERRY MILTON BROOKS for the simple reason that some of it is recorded under conditions which you wouldn't be able to understand what in the hell he was talking about unless I was there to explain it. And, of course, I don't really have time to go through this wholething at the moment, and you're not here to ask questions, so it just isn't practical. I am going to play about a hour and a half or two hours of tapes by GERRY BROOKS in order to give you a good representative sample of the type of material he is able to give. Now we'll get into the first tape.

The first tape consists lastly of the names and addresses and prescriptions of Minutemen around the country. This is by no means all of the poople that BROOKS is capable of naming; for example, when he tstified before the Jackson County Grand Jury, he posted something like 150 or 200 names altogether. And, of course, he did take the membership records when he left Minutemen headquatters in Independence. He stole three of the saven file drawers and 3m5 cards of the Minutemen members. He was, of course, supposed to give these to me as soon as they were released by the Grand Jury. He had turned them over to the Federal Grand Jury. Of course, they ware impounded as evidence. Since I haven't seen BROOKS for going on three or four weeks now, of course I don't have the cards but I would assume that his promise still holds true if he is able to get the records.

Now we'll get into the first tape.

-2-

Q. That's C. W. PANKERSLIE.

A. I didn't know him. All I know him is HANK and PETE. From Lawrence, from Lawrence. If I said Topeka, I made a mistake. But he's from Lawrence, and he drives a Plymouth stationwagon. Kind of a heavy set guy, maybe fifty years old, Okay.

BY SENDER OF TAPE:

I want to interrupt here for just a second. This fellow, C. W. PANKERSLIE, is somewhat familiar to me. I've spoken to him on several occasions. Here in Lawrence, he runs an outfit called the Lawrence Committee for Free America. It's not an active right wing organization, it's pretty much a paper or a letterhead group. Distributes literature, you know, small, standard, indigenous right wing type organization. PANKERSLIE is, in fact, a Minuteman. We checked PANKERSLIE out and here's how we did it. One night about 2:00 in the morning I called PANKERSLIE and I told him, "PANKERSLIE, this is straight from 551. 551 is BOB DUBUIS' code number. "This is straight from 551. We're having a meeting at 613 East Dalton in Independence. We want you to get out there right away." His first response was, "My god, at this time of night!" And I said, "Right away, this is straight from 551, an emergency meeting." And he said, "Okay, I'll be there." And that was it. So obviously PANKERSLIE knew what we were talking about, he knew what I was talking about, he does have a history of right wing activity. I've talked to the fellow myself, he's something of a sportsman, he's a hunter, he has several guns, he told me this and he's the type of individual that I personally think would tend to fit into the Minutemen scheme of things. So this is just one way and one instance in which we checked out BROOKS' testimony. Not only did we call PANKERSLIE, we called well over two dozen Minutemen and checked them out with messages of this kind. Mostly, sending them out on wild goose chases. Special meetings which never materialized. We sent one guy 105 miles. And he actually made the trip, by the way. There were other ways we checked them out, too, and I'll either get into these later in the tape or possibly when we can finally sit down and talk this thing over together. Let's get back into the tape now.

A. Then we've got <u>TED J. LYMAN</u>, a team captain, 3035 Flora Ave., Kansas City, Missouri, drives a white Falcon, license No. in Missouri, ER5217.

GILBERT FETGIE, 3734 Spruce, Team captain, Kansas City, Mo., works at the H. L. Meyer Optical Supply, 2600 East 12th St., Kansas City, Mo.

BY SENDER OF TAPE:

 Δr_{2}

I'm going to interrupt here to make some more comments. TED J. LYMAN is another man we checked out as a Minuteman. He along with GILBERT FETGIE, WAYNE A. MORRIS, and another Minuteman which BROOKS didn't recognize but whom he's seen before showed up at a bus station in Kansas City one night in response to a telephone call from me again speaking as a friend of so and so to the effact that BROOKS is trying to leave town, he's down at the Bus Depot, we'd better stop him. This was after hit story appeared in the Kansas City Star. These four gaps to the story appeared in the kansas City Star. These four gaps

after I made the telephone call. And this is ample evidence to me that the Minutemen are extremely organized and able to get things off the hoff in just a few seconds. Ted Lyman , one of the Minutemen that Books just mentioned and Wayne Morris, whom he'll probably get into later in the tapes you're listening to, came over to Lawrence, to apparently cause me some trable, a harassment or something, about, oh, two cr three or four weeks after we started seeing Books fairly regularly and after we had been observed by him, observed with him by other Minutemen. These two guys came over one night, or one afternoon, I should say, they were stupid enough to call me in advance to tell me they were coming. Actuelly what they were doing ware calling to see if I was home. At 5:00 I got the telephone call and someone just asked if Red Wilcox was there and I said, yes, I'mm Red Wilcox, what can I do from for you. Then they responded that we're just checking to see if you're home or something to that effect. A couple of hours later, they showed up. They pulled up in the front of house. It was raining pretty hard. We were just getting set to leave my assistant and I, and we saw them coming and jumped back in the door. We grabbed, my assistant grabbed a shotgun and I grbbed a pistol and we ran out to the pickup truck and as Soon as they passed by the house gave chase. We chased them 4 or blocks up the main street of town. They apparently caught sight of the shotgun befause they got scared and stopped at a service station. Morris jumped out of the car and ran in and called the police. Within about two or three minutes, 4 or 5 patrol cars showed up at the service station and they pulled us over SATXERS and took my assistant and I in one car and Morris and Lyman in another and took our storiss. And of course, they could see fairly rapidly that we were the good guys and they were the bad guys and they told them to get out of town and they told us for christ's sake, next time call the police, don't try to do it yourself. And here again is just another case of where we have checked out things that Books has told us. We've done this fairly regularly and with some precision because quite frankly, as you've probably thought, you begin to wonder when you hear all these fantastic storeis and all these names dropped, and you start wondering whether this guy's bullshitting or whether he's on the level. Well, I had a few qualms at first, but now after talking to the guy for six weeks, they're pretty much erased. I find that where facts are concerned, where you're dealing with factual material, names, addresses, places, dates of meetings, what went on, Books is totally reliable. I haven't caught him here. Where it's something that opinion that can be injected into the relative sagarx danger of a specific Minuteman, here Books is prone to exaggeration. Not real extortion, but he's his language is somewhat bombastic and would tend to give you an impression of something that really isn't guite that way. But again we have yet to catch him in a conscious why deliberate lie. We'll get back to the taps, now.

Theere's another member there also, he's about fin years old, grey hair, about 5'4" tall, weighs about has

He had, according to Books, and he'll probably mention this later in one of these tapes, he had been a member of the Minutemen since 1963. He was married in about 1962 and his wife was a member then too. It's sort of an open question whether or not his wife, Becky, was actually a member. Actually, the question is sort of academic cause if she wasn't a member she certainly was an active participant or she certainly helped the organization a grealdeal from what we can tell. Her job, lieterally, was to screw every major left wing zampus leader shaxsan on the campus and she could get her hands on and she did this, very effectively. Mr. Charles Hook who is presently now National Secretary of the Student Peace Union, formerly Secretary of the XX KU Chapter of the Student Peace Union here in Lawrence is one of the guys she slept with. Art Hawkins, a former activist in the Chapter here XXXXXX of XXX SDS here at KU, in fact, one of the founders of the Chapter, now getting his doctor's degree somewhere in Minnesota, is another guy she nailed. I'm going to inject a few points about <u>Mavne Morris</u>. Morris is a familiar scene in the Kansas City area. Every time there is anything liberal going on, oh, like in 1964, I believe it was, the Congressof Racial Equality held its National Convergiion is Kansas City. frequently there are peace demonstrations and this sort of thing in the area, Morris will always show up with vary wall lattered signs protesting communist iffluence in some matter. To give you an ecample, in February, I was the Master of Caramonias at the International of 22x Protest Demonstration in Kansas City and Wayne Morris came to the demonstation wth several signs, one a great big red, white and blue sign was lattered, "Now red is L. Wilcox." Another one said, "The commiss love Pam Smith. Pam Smith was a negro girl who also spoke at the rally after the march. Morris is active in several kinds of right wing activity here in Kansas City . He's sort of the publicity stunt man, actually, this is afunction he tends to fill. Let; a det back to the tape now.

A. Alright, then we have <u>Raymond Hendricks</u>, 1604 Green Ridge Lana, Independence, Missouri, who is a member of the Minutemen, who is a lieutenant in the Minutemen. Now I was a Lieutenant in the Minutemen, myself, but not a Lieutenant subservient to the Captain, to the Team Captain,

Checking all ps applications, publications, checking phones home, have a rund bwnin the City Directory, put them on index gards and handxfile then with a Security Officer up north. After they go out and we see what kind of information they come back with, well we have maybe 60 or 65, maybe 40 or 45 minist and 15 or 20 gdls who work in the Security Officer. In 196-, it must have been 1964 on February 20, I had been to the John Brrch Society meeting in Kansas City in Which Robert Hatch was the group leader so to speak. Last year sometime I go forget what the hell it was, some sort of a trade fair, a fair to disply medcial equipment Keld I believe was what it was, held somewhere dear the Kansas Medical Center in Kansas City, Kansas. There wer many countries represented in this trade fair and the Soviet Union was one of them and Hatch turned up with an organization called the Greater Kansas City Council for Civic Responsibility. (by seder of tape)

Im going to interrupt here for a minute to make some comments. on Wally Patrick Payson who Brooks mentioned a few minutes ago. The Kansas City Star of January 14, 1966, carried this item and I beliave it was in the clopings I sent you. The St Louis Associated Press. A man described by the U.S. Distrct Attorney's Office as a field representative for the Minutemen was indicted yesterday on two counts of possession and transfer of a .50 cal. machine gun and 900 runs of ammunition The Federal Grand Jury returned the indictmentagainst Walter Payson, 23, of Norbone, Missouri, inthe Court of the Chief U.S. District EMAX Judge Roy Harper. Alcohol Tax Unit agents arrestedPayson following a raid on December 29 on a farmhouse near Brucwick Missouri where they took possession of the machine guh. The Minutemen group is an Anti-Communist grojp appa reprotedly graining & its members in gorilla warfare against any invasion. So here's another case of what Brooks has had to say abiyt sing some Minutemen has been corroborated in someother ways. Either from our checking them out, or something in the papers, or some other records of his Minutemen activity and tgis again is further evidence of Brocks' reliability under most circumstances. Back to the tape.

- A. Reynolds is a member of the JohnBirch Society. Reynolds is a member ov the Minutemen. Reynolds is a Young American for Freedom member.
- Q. In Kansas City?
- A. No, in St. Joseph, Massouri.

-13-

with Glazer and Summerford and <u>Gilbert Casey</u>. Now Casey is a member of "C" and his Code No. with C is 31312 which means nothing because you can have a group and be in Kansas City and have "A" to "Z" in Kansas City and be in Chicago and have the same that you have there. is from Chicago. He was born in Mississippi.

in California. Doc Wesley Swift in the Christian Defense Leaguehas a "C" number. Donnie Loke has a "C" number. Debuis in 551 a "C" but the number doesn't signify in the files, yeu know. (inaudible)

there're in a certain order, you see, the thing is coded with a, like, you see, they'll be two or two "C's" or two "Y's" or they'll begin the thing with capital "T's" or you have, like, Jock ^M artin, well, maybe there're be two "T's" both capitals because you've got two "t's" to start, well, that's a code deal they use instead of the numbers. They confuse people. And then the numbers and the files are different, I mean, up system where the numbers, you have the MuRBership like C 41412

in Kansas City where this number in the file is just p zero. My number was 007 not because James Bond had it but because it just happened. When we first started up in Illinois and then I came in in '62 and started working (inaudible)

This was the story that made the headlines several months ago, I forget just when. But according to Brooks, he was a Minuteman, and the fellow whose home he committed suicide in was also a Minuteman in fact, a state manual coordinator or something for the Minutemen. We'll get back to the tape now.

NOTE FROM STENO:

These tapes are very, very bad in parts. Quite a few of the names are almost inaudible and all of them are purely guesswork as to the spelling.

I would suggest that someone go over the tape and fill in the parts I missed in pencil. I could then retype the attached in final form.
