Dear Bob,

When I do not acknowledge the reason is time. Terribly tied up in court and in preparations.

I'll read the Morrow insanity later. From your note I can get the drift. It is fabrication based on som thing entirely different.

I interviewed "ean years ago. His then story was credible and it has nothing to do with who killed JFK.

Dean palled around with Hall et al.

Hall was campaign manager in the Congressional effort of Harry (forget last name) who was raised by Japanese in Calif.

I'm clear in what Dean said about a decade ago. He went with Hall to the Birch and other office of get this campaign money.

The Congressmen he then names were Utt and Rousellot.

This Harry guy, who had a friend who was a lieutenant in the Méxican police, was the subject of a movie.

I have read the piece. Where it is not fabrication it is, as you say, all publis hed. Some of the quotes are cribbed and sttributed to the safely dead.

However, glad to have this. Thanks.

Here's chapter II of W.R. Morris's stirring saga about "a congressman and the general who masterminded the John Kennedy murder."

I would guess that Morris didn't have part II written until after Argosy ran Part I and the magazine bought a flimsy bill of bad goods, inddeed. The congressman and general mm are as anonymous as ever and Morris could have lifted all that's in Part II from the NYTimes without any effort at all, as you know.

What's interesting is that the same W.R. Morris, described as "a Lorretto, Tenn. author who has been probing the Kennedy case for a decade" by the National Tattler, provided the Tattler with the fodder for a July 13, 1975 article by John Moulder which named Loran Hall and Eladio del Valle as two of the "ealy Plaza shooters.

According to Moulder, Morris met Oswald's"CIA partner" in Rose Hill Cemetry in "t. Worth, wheneme Nov. 24, 1967, when the "ex=CIA agent was putting flowers (mums?) on Oswald's grave. This ex=CIA agent, according to Morris in the July 13, 1975 piece, said he "persominally picked up \$10,000 from a former US congressman with strong ties to a right=wing radical group and delivered it the money over to another man in Mexico City (who) was to turn intervente when we way to forme Oswald to end up eventually as part of a fund to finance the assassination." Nothing about "the general" in that article, though. Tiptoe through the two lips?
