

Dear Joe,

10/9/76

Thanks for the info in your 10/7 and the enclosures.

Herewith Post Mortem.

It is a long, hard work. When you finish it, to be able to deal with the King assassination other than with the prevalent b.s. I encourage you to read Frame-Up.

Rhodes not only expects nothing from the investigation- he put one at least on it to assure this. No time for details. Suits taking great gobs of time.

Harry Dean ~~stark~~ article crap. I interviewed him years ago and know his new inventions. And the basis for his improvisations. Sule' was a ripoff. I tried to sell ancillary rights to New Republic. They did this instead. Not familiar with Kirby Jones' 7/3/76 in New Republic. Time pressures are such I've had to let all my magazine subscriptions lapse.

I (alone) am suing for those transcripts I've not forced out. You'll see it all as the Sule-NR derring do soon enough. Moving for summary judgments on two of remaining three next week. These whores, respectable and otherwise, merely write letters of request once I take the court steps. This means that when I get what I sue for they do, free.

I am concerned about misdirection of this new committee which has its own bottom-sensing sonar built in. If you see anything I'd appreciate copies.

Thanks and best regards,

WKYC-TV3

October 7, 1976

Dear Harold,

Thanks for the letter.

Enclosed: the AP A wire story you mentioned, and a few clips from local papers.

Concerning your books -- I have and have read the first five, but have not seen "Post Mortem" yet. Would you please send me a copy. Enclosed is my check for \$10.75.

I have talked with several Congressman about the new House Committee probe. Minority Leader John Rhodes says he doesn't expect much to come of it; Carl Albert named Representative Downing of Virginia to Chair it because he apparently is a buff or a nut on the subject. I don't know much about him, except I understand he is retiring this year. So, the investigation will be barely off the ground when the committee will have to be reorganized. Rhodes, incidently, told me he doesn't have any personal information at all, and doesn't appear very interested.

Some recent articles I have seen -- for what they are worth: Harry Dean in October '76 issue of Argosy...Tad Szulc in the June 5th '76 edition of The New Republic...and Kirby Jones in the July 3rd '76 New Republic.

I am completely unaware of the NBC activity you mentioned. Yes, the NBC bureaucracy is strange and mysterious. I cover politicians and trials in Cleveland and occasionally go out on the road, and have very little contact with New York. But, I will try to check thru some of my friends to see what's going on...if anyone really knows.

Again, thanks. Looking forward to reading the book. Will try to keep in touch.

Sincerely,

  
Joe Mosbrook
