

11/29/76

Dear Phil,

Look forward to clips promised in your 11/26 card.

I'd like to know more about "R.I.L. says he also is STILL an atty of record." Except of the past this is false. Where, to whom and under what circumstances did he say this?

The House subcommittees were returnable today. Stories on some of these can be important.

Heard from Jimmy several days ago but not about anything of substance.

I think that regardless of how the scheduled session in Washington goes today there is a story, easier if your locals are not unwilling to level. They really have been abused and there really was no need for it. I guess maybe they do not think of it this way from their years of abusing others.

Wayne phoned Sat. mite when I had company from Europe.

Best,

Any word lately from Jimmy?

More clippings to come!
