

Rt 7, Frederick, Md. 21701

11/20/67

Dear Mr. Murr,

Your correctly addressed letter reached me promptly.

Your notes are helpful for several reasons, including my increasing forgetfulness. I welcome them,

Thanks for the little bonus on Oswald in New Orleans. The 55¢ we have added to the low-price cost hardly covers the actual postage and handling costs and leaves all the overhead unpaid. We were told today that the books are en route to us. I get the envelopes Monday. Probably by the end of next week they'll start going out. "Ops so, but regret I'll not be here to help my wife.

I have finished the writing of Post Mortem. In a week I begin a trip to call attention to Oswald in New Orleans. On my return I'll be working on Post Mortem and will also resume work on Manchester Machiavelli. Here any of his error is helpful. I have enough of that already written, but because of his unique function, I suppose it cannot be too overwhelming.

Again my sincere thanks for your help and willingness.

Best wishes,

Harold Weisberg

R.F. 1,
Moffat Ont., Canada,
October 18, 1967.

Dear Sir,

Please excuse the delay, but I thought I had better not disturb you when you are writing as I have nothing of a specific nature, just the usual odds and ends I have picked up while going through the 26 Volumes. I hope you find some of them usefull.

You will find enclosed \$2.00. Please send me a copy of "OSWALD IN NEW ORLEANS:CASE FOR CONSPIRACY." I do not want to miss any of your books, and would like to hear more about "POST MORTEM."

You will find that the affidavit of A.J.Millican(19H486) will lend support to Jean Hills tetimony that she saw a car from "Honest Joes Pawn Shop" prior to the assination. However Millican states that the vehicle stopped in front of the TSBD and left about 5-10 minutes before the assination. Millican also testifies to hearing more than 3 shots. As is to be expected by now, Mr. Millican's name does not appear in the index(15H) and he was not questioned further about this matter.

The report of Deputy Sheriff Harold E. Elkins (19H540) contains some interesting points. Elkins testified that he ran to the area from which it sounded like that shots had come from, "this is an area between the railroads and the TSBD which is east of the railroads." He states that he and other officers searched the area for only about 10 minutes. He then appears to have had an encounter with S.M. Holland at the tower. However the part of his report that intrigued me was that he was present at the sheriffs office when 3 prisoners were brought in who had been arrested in the railroad yards! He in turn took the prisoners to Capt. Fritz.

Re: the "False Oswald"- there is an affidavit from Mr. E.P. Bass (25H772) stating that he saw an individual whom he thought was "possibly identical" to Oswald at the Lancaster Gun Club about 2 weeks prior to the assination. The only description furnished was that of his son, Jan Bass, who said the man was about 5'7 $\frac{1}{2}$ " tall and was driving a 1961 blue Falcon sedan.

Exhibit 2525 (25H734) is an unfinished report of an investigation by Thomas Kelley, ATSAIC Leon I.Gopadze and SA Max Philips. The report conducted Dec. 2, 1963 concerns the finding of a Russian note in a book belonging to Marina Oswald. When translated by Gopadze the note concerned "instructions to Mrs. Marina Oswald in the event that Lee Harvey Oswald is arrested." At the end of the report we are directed to a memorandum from Kelley and Gopadze concerning the translation and furthered investigation. To date I have not been able to find the memorandum.

(2)

Exhibit 2446(25H587)- interview of Mrs. Opal Robertson. This interview will corroborate the testimony of her husband which I sent you in the "False Oswald Memorandum." (25H760).

Exhibit 2447(25H588)- Mr. William Bay Fuller stated that he saw two individuals sighting in a rifle on a makeshift range on Belt Line road about 2 days before the assassination. One individual wore a tan cloth jacket and bore a resemblance to Oswald.

Exhibit 2448(25H588)- is the statement confirming the giving of a spent shell to the police by Mrs. LOWELL T. PENN.(mentioned in my memorandum- 25H600ff)

Exhibit 2444(25H575ff) - according to the index this is the FBI report of Laboratory examinations of various items related to the assassination. Pages 45-61 are to be included. However some appear to be missing. Items included are Zapruder's camera, replica sack etc. Also the results of the tests on the various shells obtained from individuals who had seen the man similar to Oswald firing a gun. In each case it was determined that the cases could not have been fired in Oswald's gun! This is just further proof that this man could not have been Oswald.

I have others, but will not include them at this time. I do hope some of them are new and useful. Is there anything that I can specifically work on or attempt to find with regard to either "POST MORTEM" or your future books? If so please let me know as I can utilize my time in extensive study of any area.

Hope to hear from you soon.

Sincerely

P.S. Is the new address I used correct?
