STUDY STARTED IN O'HARA CASE

N. O. Bar Will Receive Testimony Record

Testimony of Criminal District Court Judge Malcolm V. O'Hara in a Chicago federal court earlier this week has been requested by the New Orleans Bar Association.

Charles J. McCabe, president of the bar association, said his group will meet to determine a course of action after the O'Hara testimony is delivered.

The Metropolitan Crime Commission has also requested a transcript of the testimony.

O'Hara told the court that he acted as a "messenger boy" for a New Orleans builder convicted along with Teamster union boss James A. Hoffa of conspiracy.

McCabe said the bar association met Wednesday and studied newspaper clippings of stories concerning the O'Hara testimony.

"In order to take further action," said McCabe, "we would have to have a transcript of the testimony given."

The attorney said the group called on the Chicago Bar Association for help and that the court reporter was forwarding the transcript.
