

2/19/87

Dear Mr. Johnson,

Thank you for the registered package, which has arrived.

There was an error in it. What I had asked for is the original document (or a Marx of it) from which the Ferris statement, 205:585-6 was transcribed.

I would also appreciate the following:

Doc 87, Folder 1, 146 (perhaps another page or so in it) a statement by Lee Rankin saying there were two 39s in Tippit.

Copies of covering letters, memos, etc., on all parts of the autopsy protocol, from the hospital, to the Secret Service and from the Secret Service. This seems not to be in the file you have sent me. What I am interested in is also the original distribution of the eight original copies. In this connection, one of the documents in 4-1 that you sent me said the receipt for the pictures and X-rays executed by Roy Kellerman was attached. It was not, and I'd like a copy, please.

Robert MacNeil, then of FBI, was interviewed by the FBI to see what is the man he would see when a "Marx cut" man said by Oswald to have been Secret Service entered the TSB to use the phone

File 5-1, Oswald's income taxes.

If there is a summary report on the (Kellerman) code at Edgewood Arsenal, I'd like a copy of that, please

Is document 1035 still classified? If it is, would you please tell me under which of the guidelines.

Thank you very much.

Sincerely yours,

Harold Winter
