

6/29/66

DEAR Mr. Tolson,

I have just noticed that the copy of the executive-session transcript of the meeting of January 21 made for me is a gap in it. The pages go from 68 to 74, without a slip indicating anything is withheld.

Therefore, I am missing pages 34 through 72, inclusive.

I would appreciate them at your earliest convenience. I expect to be in Washington about Wednesday, as we discussed. If you will have the microfilm ready for me to pick up then and I can get these pages then, that will be fine. If the microfilm will not be ready I will not go to the archives and would be glad to let you mail these pages to me.

Thank you very much.
