Dear Mr. Weisberg:

This is in reply to your letter of September 11, 1968.

Commission Document 718 was a letter addressed to Chief Justice Warren by Staff Sergeant Joseph M. Brinski and was not received from the Federal Bureau of Investigation. The attachment was missing from the copy of the document in the numbered document files when these documents were first examined but was later found with the original document in the correspondence files of the Commission. The document was withheld from research until it could be reviewed by the National Archives. It was then made available for research.

We are preparing copies of Commission Document 718, page 62 of the "List of Basic Source Materials", and pages 467-469 of CD 205 for you. As you may know, there are references to Jack L. Bowen or John H. Bowen published in the Commission's Report, page 616; in its Hearings, Volume XI, page 223; and in Commission Exhibits 1832, 1986, 2119, 2121, 2195, and 2443. We can furnish you copies of this material if you want them. No additional material is available in the name files of the Commission.

No material relating to a Rev. Jerry Owen has been found in the name files of the Commission. If you can give the first name of the Mr. Owen to whom you refer, or identifying information concerning him, we can examine the name files of the Commission for information concerning him.

As your deposit account balance is nearly exhausted, it would be advisable to send additional funds.

Sincerely,

A handwritten signature in cursive script that reads "James B. Rhoads".
