

August 26, 1968

Dr. James Rhoads
Archivist of the United States
Washington, D.C.

Dear Dr. Rhoads,

In the Warren Commission GAI FBI file are references to documents that apparently are not in that file and of which I would appreciate copies if you can locate them.

The February 24, 1964 memo by Mr. Hubert refers to rumors of the connection of Lee Harvey Oswald with the FBI originating in New Orleans and San Francisco or of rumors of other origins referring to his having had such connections in those cities. It also refers to a Dallas document involving an Agent Howe in the Dallas office that I should like to have.

Pertinent to this subject, exhibits were prepared for the members of the Commission in their January 27 executive session. I would appreciate a copy of the agenda for that session and of each of the exhibits.

I would also like all similar information relating to the CIA and any reports or rumors that Oswald was so connected.

If there was an agenda for the January 22 executive session, or any written notice or memo of verbal notice or any exhibits or notes made before, during or after it, I would like copies of them also, please.

I realize that a search of this kind can present problems for your staff, but I want to be certain that I have everything relative to this rumor or these rumors. I have SS report 767 and the documents Mr. Verb ordered for me two weeks ago. If you can locate anything else, I would like it. This also relates to the checking of the allegations.

If any statement was filed by or on behalf of FBI Agent Kaeck after the relevant testimony, I would also appreciate that or any other statements pertinent to this subject following the testimony of the heads of the two agencies concerned. Should there be any references of similar nature relating to the ONI or the DIA or any other intelligence agency, I would like them also.

May I again respectfully call your attention to the lack of response to my letter to Dr. Bahmer regarding the release of the GSA-Kennedy family contract? I believe I am entitled to a specific answer and I would hope the National Archives does not believe otherwise.

Sincerely yours,

Harold Weisberg
