Dr. James B. Rhoeds Archivist of the United States National Archives and Records Service Washington, D. C. 20408

Dear Dr. Rhoads:

A

In the past I have protested that certain of the files of the Warren Commission have been withheld improperly, in violation of law and regulation. In every case, the Mational Archives has rejected or ignered these claims. To the best of my recollection, my protest that, with his death, the slight excuse that might have existed for the suppression (for this, in a stual fact, is what much of the withhelding amounts to) of these files relating to the late David William Ferrie no longer existed has been ignered.

I herewith renew my request with respect to one of these Ferrie documents, CD75:301. Before agreeing with your subordinates, I encourage you to read this document yourself. It cannot properly be withheld under any of the guidelines. Thereafter, I hope you will see fit to read the entire Ferrie file. Such documents can not longer be suppressed merely on whim or in the belief that proper access to them will embarrass the government - or on raw power alone.

Sincerely,

Harold Weisberg
