

8/22/62

Mr. Marion Johnson
The National Archives
Washington, D.C.

Dear Mr. Johnson,

I expect to be in Washington this evening morning, Wednesday August 27. At that time I would like to examine Warren Commission Exhibits 367-2 and 361-70.

For this examination I would like to examine both the prints and the FBI negatives from which they were made. It will not be necessary to use the photo studio. The examination I plan can be made in the search room.

Because I am not certain of my schedule, I hope you can arrange to leave these exhibits for me in the search room early Wednesday morning. I will then be able to look at them whenever I can get there.

Should I need any additional prints, I will leave an order with the exhibits.

If there are other prints identical with these exhibits but larger in size than the exhibits, I would appreciate it if you would also include them.

It has been several months since I asked for the amount of the charge made when Mr. Bernabei examined some of these and other exhibits and incurred photographic expenses. Would you please leave a record of this charge for me? You have not yet responded. I am not asking for a breakdown, just the total charge against my account that day.

Sincerely,

Harold Weisberg
