Hs. Mabel H. Deutrich, Asst Archivist Hatienal Archives Vanh., D.C. 20408

Rt. 12, Frederick, Md. 21701 1/18/77

Dear Me. Bentrick.

Thank you for your letter of 1/17/77, the enclosures and the lists you preside to send. It's been a long time but it is senswhat gratifying to be back where we were more than a year age and new purkage about to nove forward. You preside a halting inch. It will nave such time and effort for us both if you take a firm stride.

In your first paragraph you say you respond to my letter of 12/28 and that in my letter all I did was "cite" FOIA. In your second paragraph you say that not supplying what I asked for "was not a fofusal."

You just did not give no the public information I requested and spent more memory not deing it that deing it would have cost and when I made the request as a formal FOIA request you write a letter saying I merely cited the act. He matter. I have no concern ever the centest of the internal papers on this or how they may be used or misused in the future.

I do not believe that anyone reading all this correspondence in the future would have much doubt. Cortainly not about the explicitness with which on more than one occasion I anknowledged that you probably had sent no those 12 pages of propared lists but that as a consequence of health problems I could not find them and thus wanted other copies.

When you complete the listing presided in your second paragraph you will also have a list of what has not been supplied me in response to my earlier requests. It will be in two parts, that which is still withhold and that which is not. I will want copies of what is not withhold, as earlier I saked. It will seed us both time and cast if you have this copying done when you have some free time not only because I have already asked for it but because as seen as I receive the lists you know I will. The one apparent purpose to be served by not daing this is to dalay my agrees and my work.

If I do not have sufficient funds on deposit I will cond another check.

The second list you have just sent says it is of "documents made available for research during the calendar years 1974." Some of these I have received were made available after 1974 and so state. And as I recall my request it was for everything after the 1970 review. In rechoking I find that the 1974 and 1975 were stapled tegether, making these three pages appear to be one list. In going over it I have the impression that other recers have been made available. I do hope it is clear that I do want all that has been released.

Minessely.

Barold Weishers
