Dear Mr. Weisberg:

This is in reply to your letter of June 16, 1971.

The photographs of President Kennedy's clothing which we prepared were for the specific purpose of showing them to researchers in accordance with the terms of the letter agreement between the General Services Administration and the Kennedy family under which title to the clothing was transferred to the United States. We do not furnish copies of these photographs to anyone but will be pleased to show you these photographs in the National Archives. We will also prepare the four additional photographs listed in your letter and show them to you in the National Archives, also without furnishing you copies. The photographs will be ready for your examination in two or three days.

We have previously furnished you an electrostatic copy of the regulations published by the General Services Administration concerning procedures under the Public Information Act, 5 U.S.C. 552, as you requested. Enclosed are copies of (1) a pamphlet of regulations for the public use of records in the custody of the National Archives and Records Service and (2) regulations for reference service on the items of evidence of the Warren Commission. You have copies of the guidelines for review of Warren Commission records and the letter agreement between the General Services Administration and the legal representative of the Kennedy family concerning the materials relating to the autopsy of President Kennedy and the clothing of President Kennedy. We believe that this is all the relevant information regarding regulations concerning the Warren Commission materials.

Sincerely,

A handwritten signature in cursive script that reads "James B. Rhoads".
