

~~SECRET~~ 10/12/68

Dear Paul,

Although in writing you earlier I said I would read all the documents that come from the Archives before going to bed tonight, it is too late and I am too tired. I have glanced at them. Most are not new to me, hence I assume not to you. Those I think you may not have I'll copy and enclose, so indicating on the list of what I got that follows. There was no covering letter. This seems to be in response to two requests, for the agenda of the meeting of 1/27 (ex) and for everything on Oswald as an agent. In ~~the~~ the second category, this is not complete. Also, I'd asked for the Hoover letter of 2/12/64. Certain obvious additional requests will follow.

Commission 987, which you have and is published

For one thing, I have been wondering lately if there was any reason to develop an interest in DIA (recall what Brown said).

Looking at some of the first documents, I see things I didn't earlier, with less knowledge and understanding.

Do you have Coulter's story? Have you ever checked him out?

Kesck's affidavit is not in this version, or set, either, and there are other provocative things. Have you any of the reports Hoover refers to, Wade, Alexander, Hudkins, etc? I'll be asking for them soon, plus memos of the 1/24 meeting, of which I didn't know.

There are a few goodies in the long SS report. If you don't have it, you should. Tell me. I'm running out of paper again. Reordered.

It is now obvious that withholding the entire 1/27 ex sess is improper and probably illegal. It is also obvious that they had more stuff than they let on re C as an Agent. And we have some good things for comparison.

If you want any of the others, ask for them. I'll be keeping these separate for a while.

Hoover sure was a busy little bee on that agent bit. I think Wade put it just right. They got up tight. Then they focused it the wrong way, on the wrong thing, and got away with it - so far.

I'll send you copies of all the letters I write. If you have any suggestions, write them and I'll pick them up, if not before I leave when I return. If you tell me out there, I'll forget by the time I get back.

Sincerely,
