Same file, 3/64-11/64

JLR tto JEH 4/3/64 return of two Moorman pix; 3/18/64, Rankin-Hoover, also on subject (ref tp 486) Note this and the previous one cannot possibly be the commission's file on photogtaphs. There is much of which I know that is not even mentioned in it. If, on the other hand, it is a complete file, then it is an awful indictment of the Commission and the way it did not do the obvious.

Three large files labelled "Correspondence concerning films and tape recordings", the first 11-63-4/64

KRLD inventory of fil, tape, 10 pp. Reel 6, 36:00 of it, "Doctor's press conference and explanation at Parkland..." Reel 27 includes doctors, including Shirew, on "discussion of Oswald and Kennedy's death at Parkland"

Total, 69 reels

Half-inch thick sheaf of ABC mimeo on what they carried

Same subject, file May 1964: much on the DCA, but not any reference to the important sequences. Same subject, file June-November 1964:
