Report:

Willens drafted Foreword

Stern Protection President

Coleman, Slawson presumably did Foreign Conspiracy because they drafted a 6/12 memo on it.

Marina: under Belin in staff memo files, dated 3/11/64 is a 41-page memo on whether she could testify.

Odio: Slawson authorized to take her deposition 4/3/64

Specter: His file is virtually barren, with only a few pro forma things. He was original authorized to take Altgens deposition (early July) He knew of Dr. McClelland's medical opinions and report for in his lengthy 2/19 memo to Rankin m, "Comprehensive Memorandum on Phase I", on p. 66 he quotes from it. (File:Report 3)

Oswald-police treatment: 21 pp memo by Ely and Stern. Says lineups N.G. (4/3/64). Ditto 3/24, 13 pp.

A Liebeler-Griffin memo in files (Box 3 of 9/20/67 release), dated 9/25/64, to Rankin, 2 pp long, was shown me then, when I asked for copies, withdrawn under Guideline 2. I found out only when I asked for the copies not provided. I made no notes on its contents.
