Mr. Herbert E. Angel, Act. Arch.
The National Archives
Washington, D.C. 20402

Dear Dr. Angel,

Thank you very much for your letter of the 30th and the enclosures.

With regard to Frederick S. O'Sullivan, would you please tell me the reason for the withholding of the November 1963 interview and its CD number? If there are other documents on him, aside from CD689:49 and the typescript of his testimony, I should like to have a copy of each or, if withheld, a statement of why each is withheld.

At 6A29 there is the word "deletion" added to the transcript. However, this does not appear in the copy sent the printing office. Is there anything in any of your files to account for this? From this record there is no accounting of the deletion.

Of the Pens documents of which you were kind enough to inform me, I would appreciate one copy of the 14 pages in CD1807.

In CD 1140, I would like those pages relating to Dr. Fernando Sanchez other than pages 2 and 3.

I would also like a copy of CE1126. If the rest of the Admiral Turley file is not extensive, I would like a copy of it. If it is extensive, I would appreciate a list of the contents, if that is no burden on you.

The Secret Service interviewed one Travis R. Bankenderfer, in Texas. I would like a copy of this or these interviews and anything else on him.

Relating to Cornelia Shind, there were enclosures 1A CD67:300A, of which I would like a copy aside from this and the following, if available: there is relating to him: CD681: 318, 320; CD1107:1035-6.

On page 68 of Chief Jesse Curry's book, electronic copy CD1000, is a picture credited to the Dallas Police Department. If this is in the original, I would like an 8x10 glossy, with a matrix of any copies or identification of objects of evidence illustrated.

There may be no need to my letter about the photograph of the picture of the back of the exhibit 3A page 116 with the letter after sets of night on the... this picture, the picture.

Thank you very much.

*Always
H. Weisberg*

W. Weisberg
