

July 6, 1971

N

Letter from Harold Weisberg dated June 16, 1971.

Assistant General Counsel - LC

Enclosed are a new draft reply to the Weisberg letter and revision of the regulations for reference service on Warren Commission items of evidence which can be published in the Federal Register if you feel this should be done. The revised portion is on the second page. The sixth paragraph was written in pencil on the original copies of the regulations but was somehow eliminated on the copy that was filed in the proceedings in the Nichols case.

We are also enclosing copies of three other memoranda related to reference service which you requested, as well as a copy of the published regulations for public use of records in the National Archives and Records Service. These are probably not all the memoranda related to reference service that are in effect in the National Archives, and we would have to make a survey to locate all of them if you want copies.

Sincerely,

HERBERT E. ANGEL
Acting Archivist
of the United States
