U.S. LABOR PARTY COUNTERATTACKS AFTER CIA-FBI MURDER ATTEMPT

New York, July 28---

Just at the point that worker, farmer and unemployed joint organizing across North America and Europe is exploding, the CIA/FBI ordered a "hit squad" of brainwashed youths into the National Caucus of Labor Committees (N.C.L.C.) International Briefing in Detroit yesterday and attempted the murder of key working class mass leaders. This follows the kidnapping and attempted brainwashing of Philadelphia N.C.L.C. member Gail Roeshman by the infamous mind-destroyer Ted Patrick.

The Detroit attack occurred as an International Briefing on the world food crisis was about to begin. This was part of the Labor Committee's international briefing network. Each Sunday working class leaders gather in Detroit, New York, (in cities throughout the U.S. and Canada), France, Germany, Italy, Sweden, and Mexico to debate the working class impact and responsibilities for changing world history...not being mere "victims" for Rockefeller's fascism.

Yesterday a group of four youths including Percy, Darrel, and Lionel Wheeler, and methadone addict Mike Tyler attempted to enter the meeting hall carrying shotguns, and one assailant shoved his weapon at the head of an NCLC security person. The assailants were repulsed and as they left the office, they were net by a "conveniently" waiting squad of police to eliminate the evidence were the attack to be successful. Percy Wheeler and others were picked up by the police. Percy is still in police custody.

There is clear evidence that the Wheeler brothers and others in the hit squad have been brainwashed. Percy Wheeler's brother and mother signed affidavits last night saying they believe that Percy has been brainwashed. Last week, Tyler's brother called the NCLC office and said "I'm being brainwashed by the LEAA." The LEAA is the domestic gestapo of the CIA which has subjected numerous ghetto revolutionaries to terror and brainwashing.

This attempt is only the latest in a series of operations carried out of CIA directed and trained zombie hit squads. As in the case of the attacks by "BLA" members trained by the CIA at Lincoln Hospital in NYC, the Detroit police and D.A. refused to arrest the entire hit squad and allowed part of the would-be killer band to remain at large, providing further evidence that the attack was set up by police agencies.

Last week, Detroit judge Damon Keith denied the U.S. Labor Party's suit for a preliminary restraining order against the FBI, after the FBI had staged an armed raid on the NCLC/Labor Party offices when an FBI infiltrator and informer, Vernon Higgons, was exposed. The FBI and local police agencies have refused to act as well in the case of Gail Roeshman, who was kidnapped from her home by her parents and Ted Patrick (already a convicted kidnapper out on appeal) and subjected to coercive psychological techniques in order to terrorize her into leaving her membership in the NCLC and USLP.

The NCLC and the USLP will take all possible legal and political means in a counteroffensive against the CIA-FBI's desperate actions, including a major conspiracy lawsuit.

What the CIA-FBI fears most is the tremendous expansion of Labor Party organizing throughout the industrial heartland surrounding Detroit and the entire North American continent. As the depression deepens, millions of worker (and mpw farmers as well) are listening to the analysis and program of the USLP, and thousands are actively joining our organizing. It is the spreading of these organizing ideas that Rockefeller fears most.
