Dear Rod,

The packet of MK materials came today, thanks.

But they are incomplete.

Probably some confusion in the mind of the secretary.

C I ~~will~~ skimmed them in a hurry to separate the set for Mike. Only one of the three batches is duplicated. There is none of the more recent stuff, including all references to the two projects and the two as-yet unmentioned cryptonyms.

I have a hunch that some of the "originals" are still there. In fact I'm sure some have not been returned, as above. No Naomi, no Search, no Artichoke, no Bluebird.

O I don't know what the easiest way is but it seems to me that the best, if you can't take the time, is to have someone copy everything in duplicate. Then I'll have a set and one for Mike. The duplicated pages I have are so few it will be less costly to repeat than to check.

Lil was glad to hear that you are coming up.

P While I was in court Wednesday and arguing with the FBI on its turf we heard from the man who is to prepare the pool. He plans for this coming week.

By the time you get here I'll have taken most of the scrap paper to the junk yard so you'll have a little more sleeping space.

I may even get the snow tires off.

Best,

Y
